Training and Production Centre for Shoe Industry (TPCSI) – Thika, is located off Garissa Highway, and approximately 400 meters from Thika Clothing Mills Industries, along Kenyatta Highway, Thika. The Centre is a specialized technology resource centre with state-of-the-art machines to cater for the needs of footwear and leather goods manufacturing industries in the country and the region. This is achieved through:

1. Provision of trainings for the advancement of industrial based skills and craft in footwear and leather goods manufacturing; and
2. Provision of incubation services through a common manufacturing facility to support MSMEs involved in footwear and leather goods manufacturing.
